

BIRTHDAY PART TESTIMONIALS

I had my son's 8th birthday party at The Gilford Youth Center and it honestly was the best party he had ever had! He had around 20 kids and they were busy the whole party playing in the game room, playing hockey, basketball, four square..you name it! What a blast! Easy set up and easy clean up...we'll definitely do this again!

My daughter will remember "7" as a special birthday, thanks to the community center. The gym had space for plenty of energetic friends to run, jump and play, without worrying about the unpredictable spring weather. The bounce house was the perfect size for this age group, and when they weren't jumping, scooters were at the top of the list of favorite activities. There was so much other equipment available for all the kids that we never even unpacked our box of party games! The clean tables and chairs are the ideal set-up for crafts, although the kids kept themselves too busy to focus on crafts or cake for very long. Her older brothers have also had a great time at parties using the gym's sports and game room equipment.

Thank you for offering the facility as such a fun and affordable option for hosting a birthday party!

Gilford mom

We recently had our son's birthday party at the Gilford Youth Center. What a fabulous place for children to just let loose and have fun. Tables and chairs were set up upon our arrival, and it took very minimal effort by us to decorate for the party (a few themed table covers, balloons, and a banner). With all there is to do, there's no need for much more. It was so great to have a kitchen with a refrigerator/freezer at our disposal, too! Everything from a bouncy house, to basketball, to floor hockey, etc. was available for all the kids to use. They even had little platforms with wheels on them and all the kids had such a great time pulling each other with noodles around the gym. Scott Hodsdon, the Youth Director, was also on hand throughout the whole event to help with anything we needed and made our day a success!

Thank you Scott & The Gilford Youth Center!
