GYC Celebrates its' 5 year anniversary

Community: That's the focus of the Gilford Youth Center. Our mission is to provide a safe, affordable, and inclusive facility (environment) for Gilford and the Lakes Region which offers educational, athletic and community opportunities for youth, adults and families to improve the quality of life.

But, just as our goal is to serve the community, it takes a community to make it work.

We desire to offer free access to children and other non-profit groups whenever possible. For the groups who do pay, those hosting private events (parties) or running paid programs, our goal is to keep that cost to a minimum. We've partnered with many well-known organizations: the Laconia Boys and Girls Club, Gilford Parks and Recreation, The Lakes Region Saint Baldrick's Organization, Cal Ripken Baseball, The Lakes Region Community Services, Genesis Behavioral Services The Laconia Head Start Program and The Village Nursery School.

Through these programs we've touched the lives of thousands of Lakes Region residents. Hundreds of local groups and businesses have been able to benefit from access to our facility. But none of it happens without help from the community we serve. Like any facility, we have costs that need to be met to keep the doors open and the programs running. The income generated by the paying groups is simply not enough to cover the basic costs of running a facility like GYC. Only through donations from the community can we continue to offer the GYC to our kids and their families.
